FREESTYLE SHOWS AND CAMPS

We have raised awareness in front of over 10 million people, from parties to NBA half-time shows, and we will continue to do so. In 2023, we will travel around the world delivering Freestyle Life Camps and collaborating with more freestylers to provide an unforgettable experience in 12 different locations.

CREATING CHANGE WITH CHILDREN

Working with kids from disadvantaged backgrounds using the power of sport to improve education, raise health awareness and build life-skills.

CREATING CHANGE WITH ADULTS

Working with adults who have lost their way and need something constant in their lives, to enable them a community, to reengage in society and learn new skills.

Working with local councils and governing bodies to help transform rundown facilities across the country, to give them a face lift and to increase participation helping uplift the area & the basketball court with new modern designs and installation of the best quality equipment.

FREESTYLE LIFE

LET'S CREATE A CHANGE TOGETHER THROUGH SPORT AND FREESTYLE
- WE HAVE THE POWER TO CHANGE LIVES.

As we all know, leading an active lifestyle can be difficult for some people for physical, social, and economic reasons.

We want to allow people to express themselves and learn new skills and we have two key focus areas.

ADULTS

Working with adults who have lost their way and need something constant in their lives, to enable them a community, to reengage in society and learn new skills.

CHILDREN

Working with kids from disadvantaged backgrounds using the power of sport to improve education, raise health awareness and build life-skills.

FREESTYLE SHOWS AND CAMPS

We believe it's vital as a group to grow awareness of what we do across the globe. We have performed in front of over 10 million people: from birthday parties, to major sporting events like the Olympics and NBA half-time shows. We continue to make people aware of what we do and why we do it. We have also worked with premium brands, celebrities and the biggest companies in the world, motivating and inspiring their employees and dependants - as well as launching new products and concepts

In 2023, we are going around the UK and world, delivering Freestyle Life Camps - and working with other Freestylers to deliver a unique program covering 12 global locations.

If you would like to discuss us performing for you or at your event, please drop us an enquiry below and we will get back to you (between shows and shooting some hoops!)

PATEEL GROUP INTERNATIONAL

Today the blood of life for all communities is the ENERGY it is a prerequisite for achieving the sustainable development and prosperity.

PATEEL INTERNATIONAL, now one of the major supplier of petroleum products to the Arab Gulf, Oman Gulf and Middle East Regions and to Pakistan and Afghanistan and to same regions in the Far East THROUGH THE SISTER COMPANY GALAXY OIL FZE in the United Arab Emirates, and main purchaser of the FUEL OIL from IRAQ.

VISION AND MISSION

- To contribute to the growth of the Iraq market by way of establishing international business links.
- To be one of the major petroleum products traders who can cover all the oil trading operation requirements and stock availability by which it can make its presence in the upcoming commodity market of the Iraqi market, and Middle East regions and to some regions in the Far East.
- To maintain the reputation and permanence as respectable oil trading Company in the oil trading market.
- To achieve and sustain full customer satisfaction the industry by continuously improving our responsiveness to our customers, a good corporate citizen aware of our social responsibilities

OUR PARTNERS

In a competitive petroleum product trading market, which encompasses virtually all sectors of any given economy, we asked ourselves one key question: "How will PATEEL INTERNATIONAL distinguish itself?" The answer we found to this question is in defining the relationship we want to have with our clients.

At PATEEL INTERNATIONAL we pride ourselves in forming long lasting relationships with our customers, whom we see as partners – forging alliances instead of sole business associations. Though we source and trade energy products, we are by no means pure traders, instead we want to go several steps further, and focus on adding value to both our products and those of our partners. "We envision this course by offering various services, such as supplying feedstock, sourcing and buy back arrangement with our partners."

RUGBY DEVELOPMENT PLAN

KHOBAR RFC, in association with ISG, launch junior rugby in the Eastern province.

Headed up by Jesse Lapierre and Matthew Williams, this program has been created to offer a community based rugby club in the eastern province, open to girls and boys, to learn and play rugby. The program is for 9 year olds to 18 year olds.

Khobar RFC was founded in 1976 and this rugby club has been an integral part of expat and Saudi access to rugby in the kingdom. We want to develop the reach in the community and have created the first junior rugby program in the eastern province at a club level.

We are delighted to be able to facilitate this program thanks to ISG and the use of their 5G sports pitch, enabling the best possible environment.

The program is designed to be a pathway for Aramco touch rugby, ISG touch rugby and any other schools or communities in the Eastern Province who want access to rugby and the unique values it promotes within the community.

The program will run for 1 hour 15 mins on Sunday evenings, with the session starting at 5:30pm and ending at 6:45pm. The sessions will be focusing on rugby skills, passing, evasion, rucking and tackling. We plan to then take teams to other clubs in the Kingdom and on tour to international venues, playing age grade level matches against other clubs.

The program will be delivered by certified and accredit coaches and will align with the World Rugby player pathways model and compliance, to enable a fantastic environment to improve as a young athlete.
